B.A.D.C. DIRECTORS AND COMMITTEES MAP 1960 PROGRAM

On Monday evening of this week, the Directors and members of all committees of the Bethel Area Development Corporation met at the Selectmen's Office for a general discussion of the program of work for the coming year. Following two hours of intensive study, the following committee assignments were agreed upon:

Industrial Committee. This group, led by Eugene Van Den Kerkhofen, its Chairman, will make a completely new survey of possible sites for industries in the Bethel Area and will prepare a list of such locations with available facilities such as water, electric power and transportation for the consideration of any prospects that might be found. Concurrently, it will establish close contact with the Industrial Division of the Department of Economic Development at Augusta for any possible "leads" on prospects that might come through that source, and it will explore whatever channels of endeavor could be opened up for new prospects through manufacturers and producers already doing business in the Area.

Proposed State Park Committee. Under the able Chairmanship of Dexter Stowell this group will contact the State Park Commission for a briefing on the most desirable natural facilities of a public camping area and will then conduct a survey of the entire Bethel Area in an effort to determine whether or not a suitable location exists that would justify a presentation to the Legislature at the next or some future session.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

Winter and snow brings problems for both individuals and towns as well. Two of the most common complaints from the citizens are driveways being filled in with snow and mailboxes that have been hit by a plow wing. In talking with officials in other towns it is learned that these are two common complaints in those communities. One viewpoint most commonly expressed is that the plow wing could be lifted when passing driveways. If this was done just imagine what the road would be like by spring, each time the wing was lifted the snow would build out into the road. With a large accumulation of snow the snow bank could easily project into the traveled portion of the highway.

As for mail boxes you will note that the greater part of them are set on top of a post, which was very satisfactory before the days of keeping roads plowed for motor vehicles. For a number of years mailboxes erected in this manner have been a problem for snow removal crews, particularly after large storms and there has been an accumulation of snow. The Post Office has a leaflet illustrating how a mailbox should be installed when snow removal is a problem. Very little difficulty is experienced with boxes that are erected by first setting the post back from the road, with the box on the end of an arm extending from the post.

Two reports were recently received and on checking it was learned that snow had been plowed out of driveways across to the opposite side of the street adjacent to driveways on that side. In these two known instances when the streets were plowed and the snow bank pushed back two individuals got snow in their driveways that should have belonged on the opposite side of the street.

Sincerely,
Harold L. Bean

Appropriations:
Roads and Bridges, \$6,000; Police State Aid Roads, \$1,000; Tarring Streets, \$3,900; Snow Bills, \$6,000; Support of Poor, \$3,400; Common Schools, \$43,900; Service Health Officer, \$75; Chamber of Commerce, \$75; Dependent Children, \$200; Memorial Day, \$100; Maine Publicity, \$50; Tax Abatement, \$100; Town Officers Salaries, \$3,200.

Trivard, will thoroughly canvass the community for prospective new members.

At the conclusion of the session, the President, Howard W. Cole, urged all three groups to undertake their respective assignments at the earliest possible moment, and with the same spirit and energy that brought the new Pavement Woodworking Plant and the Sunday River Skiway to the Bethel Area during the first two years of the Corporation's existence.

The Upper Room
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Thursday, March 3
Read Matthew 6:19-26
Let us not be weary in well doing: for in due season we shall reap, if we faint not. (Galatians 6:9).
SOMETIMES we get discouraged in our Christian living. This may be due to the monotony of our work. We may see little beauty in a single color; but put two together, blend them or contrast them, and we are lifted by sheer beauty. We may hear no music in a single note; but when we weave several together harmoniously, we notice the difference.
We become discouraged sometimes because we think that our one aim is to get the job done. But there is another side of the labor story which we so often forget. The Christian view is that we are not making things; we are making men.

The most important thing that you and I have to make is not a living, but a life. Let us put patience, kindness, sympathy, courage, and good honest toil in our tasks. Thus we shall be planting eternal truths in our hearts, eternal values into the characters God would have us build.
PRAYER: Our Father, when we become discouraged, help us to look at life through the eyes of Christ. Amid His toil and grief, He saw Thee. In seeing Thee, He found the way to the hearts of people and lived for their good. Help us so to live, in His name. Amen.
Thought For The Day
Life is more important than a living; building character more vital than making things. Thomas B. Mather (Missouri) World-wide Bible Reading—Luke 20:41-21:9.

CHAMBER OF COMMERCE MET TUESDAY EVENING
Sumner Burgess was the speaker at the regular March meeting of the Bethel Chamber of Commerce, held at Bethaven Tuesday evening, March 1. He described the activities of the Wood Department of the Oxford Paper Company. This Company owns and leases timberlands, and also operates as a procurement type of company. In this latter function, it purchases both soft and hard woods mainly in the central and western part of the state. This wood is processed at the Oxford Paper Company plant in Rumford.

Oxford Paper was one of the early companies to become associated with the Tree Farm Family Program. In this field of activity it supplies free service to owners of woodland property to help the owner to grow, improve, cut and market his wood.
Mr. Burgess said there are some 76,000 owners of small woodland lots in the state—varying from a few to several thousand acres—with an average size of about 75 acres.
The Company cooperates with the State Forestry Service in woodland improvement activities, all of this contributing to a better economy in the towns and counties in this area.
An interesting question and answer period followed the talk.

MEZZO-SOPRANO TO SING AT RUMFORD MARCH 15
Singing in Rumford for the members of the Rumford Community Concert Association on March 15 at 8 P. M. at Stephens High School will be Mary McMurray, mezzo-soprano. The lovely red-haired American mezzo possesses a voice of such extensive range that she has been called both a contralto and a dramatic soprano, and has been compared to a youthful Schumann-Heink and also to Rise Stevens for her vivacity and zestful Carmen-type singing.
After graduating from Iowa's Grinnell College she studied voice in New York winning a scholarship for study at Tanglewood, summer home of the Boston Symphony and proving ground for so many of America's finest young singers. Since 1950 she has studied voice and repertoire in Europe and America exclusively with Andrea Palestrina. When she returned to the U. S. after a successful debut in Brussels, there was already much speculation about her in top musical circles. Since then the copper-haired mezzo has appeared as soloist with leading orchestras, has made coast-to-coast tours, and has added to her operatic repertoire; she has added triumph to triumph with each succeeding season.

MAN'S RECIPE

TREENA'S TUNA-ASPARAGUS CASSEROLE
Letters ask how much gardening I actually do. Here at Sunny Acres I have 40,400 square feet in garden plots, 100 cultivated blueberries, and 35 dwarf apples, pears, plums and cherries.

I enjoy experimenting, and have 150 feet of Mary Washington asparagus on which I am running experiments. Blanche and I like asparagus. Fresh, plump asparagus, no more than an hour from the garden to table, is one of our favorite vegetables. Once you get a bed going, asparagus will produce for 20 to 30 years.

This asparagus-flavored casserole is a good supper dish. Use one package frozen peas. One six or seven ounce can of tuna drained, one can asparagus soup, one third cup creamy milk, one half teaspoon salt, one eighth teaspoon pepper, one half teaspoon parsley flakes, one cup buttered crumbs for topping.

Cook the peas until tender and put peas in a greased casserole. Spread the flaked tuna over the peas.
Mix the soup and milk with the salt, pepper and parsley flakes. Pour this over the tuna and peas. Bake at 350-375 for 15-20 minutes, until piping hot and crumbs are brown.

PLENTY OF GOOD SEED POTATOES AVAILABLE FOR PLANTING

There's plenty of high quality seed available this year for potato growers to plant, according to Paul N. Mosher, Extension Service Crops Specialist, University of Maine.
Some 90 per cent of the seed from 12,494.71 acres of Maine potatoes tested in Florida was approved as Foundation seed. Another 9.3 per cent was given approval for table stock seed. This left only 7 of one percent which was not believed suitable for replanting.

The acreage represented in the Florida test approved seed is enough to plant 138,000 acres explained Mosher. There are enough Maine "Blue Tag" certified seed potatoes in the Pine Tree State to plant 700,000 acres.

Lists of the potato acreages included in the 1959-60 Florida Test are available from county agents of the Maine Extension Service, from the Maine Department of Agriculture at Augusta, or from Mosher at Downing Hall, University of Maine, Orono.

Mosher said that the seed lots represented in the list were produced on farms where no virus was found during 1959. The acreage tested was larger than in any of the previous four years. In fact, it was 3,400 acres above last year.

Potato varieties Florida tested included Katahdin, Kennebec, Chippewa, Cobbler, Russet Burbank, Pinto, Green Mountain, Teton, Bliss, Cherokee, Delus, McClure, Merrimac, Ontario, Plymouth, Red Pontiac, Rural Russet, Rushmore, Russet Sebago, Sebago, Sequoia, and Warba.

COUNTRY FLAVOR

THE MONTH OF MARCH

A countryman on his hillside farm knows that March is unpredictable. There are years when "sugar snows" add new cover; there are years when Winter's worst blizzards wait for the third month. There are seasons when March is wild and windy and years when the month is mild and mellow.

Sometimes the sugar season begins with the first of the month, and crisp, star-light, frosty nights and warm, sunny days give generous sap runs. Men and boys hustle to keep the sap collected and the fire burns day and night under the evaporator.

To him who is sensitive to the turning year and who harvests satisfaction in each of year's major rhythms, March means the end of winter and the resurrection of life. For we know, irrespective of the weather, that Earth is ready to turn its northern face to the life-giving sun.

Alder's catkins grow long and pussy willows are extending soft-fur noses to test the warming air. At month's end a man thinks the lilac buds by the kitchen door are swelling; walk in the old orchard behind the barn to check fruit buds on Northern Spies, August Sweets and Red Astrakhans.

It is still winter in the northland, but one can feel the stirring. Man is strangely inarticulate in the presence of the profound verities. He can feel but not express the great convictions that govern him. March is a time of reawakening. It is the time of resurrection—of affirmation of the faith that guides his footsteps along the trail of years.

ANNETTE D. CHAPMAN

Funeral services, conducted by the Rev. Clifford Laws, were held at the Greenleaf Funeral Home February 24, 1960 for Miss Annette Delano Chapman, who died suddenly at her home in Bethel Sunday evening, February 21st.

Miss Chapman was born at the Chapman Homestead in Gilead, September 19, 1908, the daughter of the late Jack A. and Jessie Sprout Chapman. Having attended the grammar schools here and at Columbus, Ohio, she entered Gould Academy for one year, at which time she first encountered the rheumatic fever and subsequent heart condition from which she was never to recover fully. After a year of convalescence and travel with her aunt, Miss Annette D. Sprout, and her grandfather, B. F. Sprout, of Chillicothe, Ohio, she made her home with them and attended the Chillicothe High School, from which she graduated in 1929. From there she went to Lindenwood College for women at St. Charles, Missouri, and she graduated in 1933, receiving the degree of bachelor of arts. Returning to the home of her parents she attended the Farmington Normal School, Farmington, Maine. But ill health forced her to leave after one semester.

No one could have endured with greater courage the burden of ill health and blighted hopes for a life of activity. With never a word of bitterness or complaint Annette devoted her thought and energies to the helpful consideration of others. To her parents, her brothers, to others of her family and to her many friends she was a never-failing source of loyal devotion. Unusually gifted in the art of friendliness, her great interest in life was people. When she would come into a gathering there came with her an effervescent spirit of joy and the anticipation of amusement and entertainment. It was always there.

Through the trials that a lifetime may encounter: the bereavements, the disappointments, and sorrows, never did she fail to show the utmost in courage. And never once did her exceptional sense of humor falter.

In all the roles that life allotted to her: as daughter, aunt, niece, cousin, friend, and dear sister, to each she brought the full measure of refinement, character and love. In memory she will ever remain with all who knew her.

GOVERNOR REED ANNOUNCES CANDIDACY

Since assuming the Governorship in the waning days of 1959 I have been faced with a most important personal decision, that of determining whether I would be a candidate to succeed myself.

Many people have encouraged me to stand for this nomination. Obviously a decision of this magnitude requires much thought and consideration. During the past few weeks I have carefully weighed the factors involved.

With full confidence in the wisdom and judgment of the people of my state, I offer myself as a candidate for the Republican nomination for Governor of Maine.

It is my belief that in a constantly changing world we must be ever alert to adopt sound measures that represent true progress in good government.

Governor John Reed

From experiences gained during three legislative sessions, together with my current executive responsibilities, I feel I have acquired a first hand knowledge of state government. On the basis of this record and my sincere desire to further serve Maine I present my qualifications to my fellow citizens.

If elected to this high office I pledge a strong, vigorous administration dedicated to the best welfare of our great state.
